Zurich Select Protection

Want help keeping your vehicle looking newer longer? Need convenient, timely assistance if you lose your keys or break down on the side of the road?

Zurich Select Protection offers valuable benefits and assistance for a variety of road hazards, cosmetic damages and emergency situations. It is select coverage that can help keep your vehicle looking newer and retain its value longer, while providing a more worry-free ownership experience.

Flexible benefit combinations are available to suit your driving needs and budget. Your tailored plan could include the following vehicle protection options:

Tire & Wheel protection

Day-to-day road hazards can damage your tires and wheels. Tire & Wheel Protection provides for the repair or replacement of your tires if they sustain damage as a result of road hazards such as metal, nails, glass, debris, potholes and more.

If your wheel is also damaged due to a road hazard and cannot seal air after the tire was repaired or replaced, Zurich will also cover the cost to repair or replace your wheel.

Alloy wheel repair

Alloy wheels are vulnerable to scratches and gouges. To keep your wheels looking newer longer, Alloy Wheel Repair provides for the repair of cosmetic damage to alloy wheels.

Paintless dent repair

It's an unfortunate truth: dents and dings occur over time and gradually decrease your vehicle's value.

Paintless Dent Repair covers minor dents and dings on your vehicle's exterior surfaces where the paint has not been broken.

Key protection

Losing your vehicle keys or key fob can be inconvenient and costly. The technology in today's vehicle key remote fob makes it expensive to replace.

Key Protection offers repair or replacement coverage for your keys or key fob if it is lost, stolen or destroyed. If you are not able to replace your key or key fob immediately, you may be reimbursed for alternate transportation. Additional keys lost or damaged with your vehicle key are eligible for replacement, too.

Windshield repair

Even small chips in your windshield can lead to big problems. Windshield Repair coverage provides for repair of minor chips and cracks to your windshield caused by propelled rocks or other road debris while driving on public roads, streets and highways.

Emergency roadside service

Travel with greater peace of mind with Zurich Select Protection Emergency Roadside Service provided with every package. You just sign and drive, with services including towing, jump starts, tire changes, vehicle fluid delivery, lockout assistance and concierge service (emergency phone support and assistance).

Note: Certain restrictions and exclusions apply, and coverages may differ in some states.
