

Dear Brendan,

I wanted to take the time to let you know that I really appreciated working with you. This was a big deal for me to get this truck. You were always available, and you would call right back with information as we requested it.

The truck is in great condition, and everything we discussed about the truck was taken care of, and was done correctly. You helped us out a ton by getting the delivery of the truck set up.

What really showed me that this truck had been gone through, was once we recieved the truck in Rapid City, the truck went to work that next day loading timber for a South Dakota National Guard training exercise.

This truck helped us win an award of excellence from the Montana National Guard, for loading over 240 semi truck and trailers that week. We could not have done this without you, and your skilled staff at Apex.

I will highly recommend anyone I refer to Apex, that they work with you in dealing on a truck. We will be calling you once we need to upgrade, or add an additional truck.

Thank you,
A very satisfied customer
