

Jess,

I want to take this opportunity to say thank you for making our purchase of the Freightliner Roll Off so easy that my boss didn't even have to take time out of his busy schedule to get involved.

Once we chose the truck, Apex made sure that it was up to standards before we drove it off the lot, and even when a minor repair was needed, you stepped up to the plate, and took care of it right away.

I will definitely think of Apex trucks first, when we are ready to purchase another truck for our fleet! Thanks Again!!
