

I have had the opportunity to work with Apex Equipment for over four years and hold them in the absolute highest regard. They have always demonstrated their dedication to our company, and we have always been able to count on them in times of need.

Apex has displayed a great knowledge for the industry and a unique ability to identify and meet our companies' needs. They have been a very valuable asset, one that can be of great value to any company in need of a Roll-Off Truck(s), Containers, or anything relative in nature.

It has been a pleasure to have worked with Apex Equipment, and we are able to make this recommendation without any reservation whatsoever.

Sincerely,  
Brandon Brown  
COO
