

DOC DISPOSAL

We specifically chose Apex because while searching online, the roll off trucks Apex listed, were clean and looked to be in good shape for used trucks. Also, the warranty offered on the trucks was appealing, as all other used trucks we found were as is with no warranty; and the pricing of Apex trucks was comparable to the other trucks without warranty.

Working with Apex was successful, due to all the help along the way. Any questions we needed answered were answered right away. It was a friendly, easy transaction.
