

Evangeline Parish Solid Waste Commission

To whom it may concern:

While searching online for a used grapple truck, I came across Apex Equipment Sales in West Palm Beach, Florida. Looking through the inventory available, I found exactly what the commission needed. I contacted Jess Page, with Apex, to ask a few questions about this particular truck.

Jess has been extremely helpful through the entire process of this purchase. He allowed my mechanic and myself to personally inspect the 2010 International Grapple truck before we made our final decision. A most professional staff of people we met with.

Jess finalized all of the necessary paperwork and had our truck safely delivered in minimum time! We have been completely satisfied with the performance of this truck, and highly recommend Apex Equipment to our friends and colleagues.

Sincerely,
Patrick Derouselle
Executive Director
